

## **Emmanouil Lakiotakis**

PhD candidate at the **Department of Computer Science, University of Crete**, and researcher at the **Institute of Computer Science, Foundation for Research and Technology – Hellas (FORTH-ICS)**. His research focuses on **computer networks**, **Software Defined Networks (SDN)**, and **non-terrestrial networks (NTNs)**. He specializes in **routing optimization** and **resource management** in distributed network environments.

Since 2014, he has held a **coordinating role** in the undergraduate course **CS335B – Computer Networks**, where he is responsible for maintaining the **Mini-Internet platform**. He has published research in **international conferences and journals**, has extensive **teaching experience**, and has received **scholarships and awards** from organizations such as **H.F.R.I. (ELIDEK)** and **ACM SIGCOMM**.
